### **ABOUT US**

Our aim is to deliver innovation that enables cost-efficient and smart construction solutions. The need for sustainable construction to address global environmental challenges is growing fast. We, at Gypnest, have continually developed innovative wall and ceiling products and systems for our customers. Established in 2019, Gypnest is the first gypsum board plant in the eastern region of India and located at Amta, Howrah, West Bengal, India. We have a production capacity of 10 million gypsum board and gypsum value added plaster, with in a short period, Gypnest India has emerged among the leading manufacturers of gypsum based construction solutions in the region and we have achieved a distinct competitive edge by our commitment to provide the most durable, and cost-efficient green and sustainable gypsum solutions to our customers. We deliver a wide range of gypsum based products systems & accessories. With a strong customer relationship management and dedicated sales, marketing and logistics team Gypnest India has further ensured the delivery of top quality customer service and strong sales network in India, Nepal, Bhutan and Bangladesh. We rely on the latest technology in all of our operational activities.
